ABOUT ME

I am a highly skilled and motivated web developer with several years of experience building user-friendly, modern websites. With a strong background in HTML, CSS, JavaScript, and various web development frameworks, I have the technical expertise required to turn your vision into a reality, I am highly organized, and I take pride in my ability to meet deadlines and manage multiple projects at once.

EDUCATION

Higher Institute for Specific Studies

Giza-Egypt | 2020 - 2024

- Management Information Systems

TECHNICAL PROJECTS

Full-Stack Next.js Blog Application

November 2023 - December 2023

NextJs · MongoDB · Prisma · Firebase · Css Modules

- Implemented dynamic rendering of blog posts, allowing for efficient content updates without compromising on performance.
- Leveraged Next.js's SSR capabilities to optimize SEO and enhance page load times, ensuring a seamless user experience.
- Ensured a mobile-friendly experience through the use of responsive design principles and tested the application across multiple devices.

React E-Commerce Platform

March 2023 - May 2023

1. React · Redux · React Router · Git · Tailwind Css

- Engineered a responsive SPA architecture with React, providing users with a fluid and interactive browsing experience across various devices.
- Implemented Redux for centralized state management, ensuring consistent data flow and a predictable state container across the application.

React Movie List Application

November 2023 - December 2023

1. React · Redux · React Router · Git · Bootstrap

- Incorporated a search feature for users to quickly locate specific movies within their lists, improving overall user experience.
- Implemented dynamic rendering of movie lists, allowing users to view, add, edit, and remove movies in real-time.
